

Cure 4 Aasim

Aasim syed, a loving husband and father of two, has been diagnosed with Acute Myeloid Leukemia (AML). He has already received an initial round of intense chemotherapy and a blood (stem cell) transplant is required ASAP.

As of now, there is not a single match for him in the entire stem cell donor registry, Be The Match. Unfortunately, South Asians and other minority groups within the Muslim community are overwhelmingly underrepresented in the registry, which hurts their chances of survival.

If you register to be a donor, you could save a life. Allah (swt) tells us in the Qur'an, "Whoever saves a life, it will be as if they have saved all of humanity." (5:32)

REGISTRATION IS EASY:

It takes <5 minutes. If you are between 18-44 yrs old, sign up by clicking [HERE](#), or text AASIM to 61474.

You will receive an oral swab kit in the mail, follow the directions, and send it back in the mail right away.

BLOOD DONATION IS EASY:

If you happen to match with Aasim or anyone else in need, you will be contacted to donate blood stem cells (80% of cases) or bone marrow (20% of cases). Read more about the process

[here](#).

OTHER WAYS YOU CAN HELP:

Your prayers and support are appreciated.

Help spread the word and share within your networks, especially ages 18-44. Follow us on Facebook, [Cure 4 Aasim](#).

Thank you for your support!
